

The Pollution Prevention (P2) Association proudly announces the 2013 Pollution Prevention Awards for Outstanding and Meritorious achievement.

The 2013 Pollution Prevention Association's Outstanding Award Winner is:

- **Salt Lake City** awarded for its new Public Safety Building, the first building of its kind in the nation to achieve a net zero energy rating. The award recognizes the innovative technologies and energy efficient strategies employed in the design of the new Public Safety Building, including the use of roof canopy solar panels, an off-site solar farm, strategic use of natural light and florescent or LED low energy lights, a solar hot water heating system and energy monitoring systems.

The 2013 Pollution Prevention Association's Meritorious Award Winners are:

- **Momentum Recycling** a Salt Lake City-based company, awarded for expanding its recycling services for glass, and green and mixed waste; and upgrading two fleet vehicles to compressed natural gas (CNG).
- **Northrop Grumman** , one of the world's largest defense and commercial aerospace companies, for replacing a circuit card inline cleaner resulting in significant water and electricity savings

The Utah Pollution Prevention Association, a nonprofit organization made up of Utah businesses and institutions dedicated to reducing pollution through practical, cost-saving methods, each year recognizes the achievements of businesses that make outstanding efforts to reduce risk to the environment and public health.
